For that price, there is no question about getting it.
even with a generator.

▼ "Bordelon, David" ---09/07/2012 11:52:24 AM---Found an RV available starting Monday, \$51/day. We are going to check on power supply at the site.

Found an RV available starting Monday, \$51/day. We are going to check on power supply at the site. Might have to rent a generator. Will know more this evening.

There is plenty of room really.

With what ya'll are doing, what about a rental RV? It may be more comfortable.

Greg,

9544326

Do you think we could revisit the LRV? Would make equipment storage, charging and be much more comfortable on our personnel. I can talk with Louis if you'd like. I haven't seen the site, so don't know if space is limited or what his heartburn might be.

Yea, the LSP was a pain. I talked to Louis Martin yesterday about bringing the LRV down and planting it right there in Texas Brine, he wasn't too thrilled. But I asked Eric to think about it and let me know what he thinks. It would take a couple of days to get it down there but I sure don't have a problem with it being there.

And estimate for the 50 days.

Greg,

We've got personnel scheduled for all of the time slots for the next two weeks. Am working on the cost estimate now. Do you want me to go out 50 days? Was going to include some travel costs. I know we'll end up running into some shifts that Baton Rouge will be unable to cover. For rates I was going to use a blend, due to not knowing the entire schedule. Robert said one of the LSP was not very receptive to our staging in their MCP. Do you think one of the EPA LTVs would be available?

Please let me know if these assumptions are acceptable.

David
